<p>Old Business:</p> <p>WebEOC Changes</p> <p>Diversion Data Sharing</p> <p>Hospital Wait Time Workgroup</p>	<p>Andrew Slater stated that there are no WebEOC changes on how hospitals report diversion status changes.</p> <p>Robin Manke stated the Committee went back to VHHA and VDH and it was decided that the information was owned by the Coalition for the Central Region and the hospitals would have to decide if they want to give their information out. As Gray Corbett had stated in his report if the hospital checked no on the MOU for diversion data sharing they are not allowed to see any other participating hospitals data. If the hospital checked yes on the MOU they are allowed to see other participating hospitals data. The MOUs are not all completed at this time and as they come in the data will be available. Allen Yee asked if EMS was able to see the data and Andrew Slater stated that the parameters do not allow for that as of right now, if the coalition wishes to change the terms on the next MOU then it would be possible. Robin Manke stated that EMS had never asked for the data before but it was something that could be looked at and discussed.</p> <p>Christopher Lindsey has not set up a meeting yet and there was some confusion on who was on this workgroup. Megan will look at the past minutes and send out a reminder email.</p>
