	February 28 th , and will be the last chance to make any corrections. EMS recognition is open, and he reminded everyone to get it out to the EMS agencies. There were five in the ODEMSA council alone last year. The next VHEC state meeting will be either the 12 th or the 19 th of May, it will be finalized next week by the steering group.	
New Business:		
Nitrates Use in Chest Pain	This discussion was tabled until next meeting.	
Focusing on Cardiac Arrest	John Dugan stated this makes sense as it would be the next logical step for the group. He stated it gives focus for the committee and keeps them engaged. The only thing he brought up was not losing focus on the STEMI data as other regions have moved down this road and their STEMI progress has slipped.	
	There was no further business from the floor.	
Next Meeting	April 19, 2017 at 08:00am	
Adjourn	The meeting adjourned at 8:29am.
