STEMI Steering Committee

October 26, 2017, 08:00am to 9:30am
 Chair: Dr. Allen Yee, Regional OMD

Members and Guests Present: Al Thompson, Anne Fereday, Emily Mochan, Jeff Ferguson, Allen Yee, Ashley Frazier, John Dugan, Matthew Joseph, Ashley Hansen, Gary Samuels, Wayne Harbour, Justin Yarboro, Brad Taylor, Mike Harmon, Anne Fereday
Conference Line: Jeff McPhearson, Lisa Baber
ODEMSA Staff: Jordan Rennie, Megan Young
Minutes Scribed by: Jordan Rennie
Materials provided: Meeting agenda, Reference Binder

Topic/Subject	Discussion	Recommendations, Action/Follow-up; Responsible Person
Meeting Called to Order	Allen Yee called the meeting to order at 08:08am. Introductions were made, and it was determined there was a quorum. Minutes from the last three meetings were approved.	Motion: Matthew Joseph Second: Al Thompson Vote: Approve Minutes
Reports: <u>Hospitals</u> HCA- Chippenham/Johnston Willis HCA-JRMC/ TriCities	<p>Brad Taylor reported on the upcoming construction that would affect EMS. Chippenham was reported as undergoing construction and updates to the ER which would block the usual entrance to the ER. Crews will have to enter in through the radiology department during this time. The MOB buildings that are across from the ER are being demolished. CE dinner was reported coming up on the fourth Tuesday of November.</p> <p>Ashley Hansen reported that they are seeing more NSTEMIs than STEMIs. In discussion with air medical companies about them be first contact for transferring those patients. Reported that the helipad is in discussion right now. No confirmed plan for improvement. Reported Tri-Cities EC is doing really well seeing 70-80 patients a day.</p>

	Tri-Cities is looking into certification from the ACC. Justin Yarboro reported a CE dinner occurring tonight with Dr. Sheldon teaching.	
HCA-HDH	Gary Samuels reported that HDH has been seeing less STEMI's and more NSTEMI's. Reported a CE dinner on December 15 th .	
CHS	Anne Fereday reported that they have a new CFO. Upcoming survey for cath lab and chest pain accreditation. They are opening a new EP lab November 27 th . They have also broken ground on a new freestanding ED in Colonial Heights.	
Bon Secours	Al Thompson thanked everyone for coming to the First Responder Dinner they had in Midlothian. Cadaver Lab was a huge success. Expo with Henrico Fire coming up March 3 rd and 4 th of 2018.	
<u>EMS Agencies</u>		
Prince George Fire and EMS	Ashley Frazier reported that they have been improving turn-around times significantly due to the opening of Tri-Cities. Reported they broke ground on a new fire station.	
Chesterfield Fire and EMS	Allen Yee had no report	
New Kent Fire and EMS	Lisa Baber had no report	
Henrico Division of Fire	No report	
<u>ODEMSA</u>	Megan Young reported that they are finished with protocol review and are now pricing the books out with Officemax. She reported that they have also finished scheduling the 2018 classes. She is now trying to get in touch with Agencies to see who could host in the different sub-council regions. Allen asked for some clarification about the regional training funds. Megan stated that there is a form to be filled out on the ODEMSA website under training. Once that form is filled out it sends an email to ODEMSA. The process is still a bid process. For courses in the future, Megan stated ODEMSA would be asking for updates every quarter to better track fund usage.

<p>Old Business:</p> <p>Mission Lifeline Action Registry Data</p> <p>Hospitals Action Registry Regional Reports</p> <p>Metrics for Pre-Hospital Cardiac Care</p>	<p>John Dugan reported that Action Registry and AHA have parted ways. However, they do still have joint initiatives that will continue.</p> <p>John Dugan reported that hospitals continue to record data in Action Registry but unfortunately due to the split he can no longer access that information. The recommendation that has been put forth is filling out the information via a form through VHAC. Hospitals can submit their data through this venue. Additional recommendation is that a “superuser” account could be created for the committee. This would allow for data to be seen in a blinded fashion. Dr. Ferguson reported for Dr. Kontos who stated that VHAC is working on preparing regional reports. John Dugan reported that Winchester is a hospital that has integrated Action Registry into the charting system for CAD which has made retrieving data easy.</p> <p>John Dugan reported on metrics for 2018 and passed a copy of the metrics out. He reported that these are the metrics for 2018. He stated that they have pushed to not have metrics changed for 2019. He brought up the optional PLUS metric saying that it is the percentage of adult out of hospital cardiac arrest patients’ resuscitated on-scene to with sustained ROSC. He also brought up the 5th metric which tracks 12 lead transmission or reporting within the first ten minutes. John stated this metric will probably be the hardest to track. An exclusion John brought up is that if EMS has a transport longer than 45 minutes but a door to needle time within limits than the measure is still met. John showed some ways to collect data and report it.</p>

New Business:		
Having the Committee focus on cardiac arrest as well as STEMI	Allen Yee showed the committee a reporting system that Chesterfield Fire and EMS is using to record cardiac arrest and STEMI data in fractiles. This has allowed them to get much more accurate data in terms of patient times. Allen asked if this might be something that the region would be interested in. It was agreed that it would take a lot of data crunching for the whole region. It was also asked if ODEMSA might be able to pull the data from Imagetrend Elite. ODEMSA agreed to see if it was possible. It was agreed to look into it and report back next meeting.	
Business from the floor	Nothing from the floor.	
Next Meeting	January 25 th , 2018	
Adjourn	The meeting adjourned at 0902.
