<p>New Business:</p> <p>Nitrates Use in Chest Pain</p> <p>EMS STEMI Reported Time</p>	<p>Allen Yee stated that some agencies in the region have removed nitrates in the use of chest pain unless it is a confirmed STEMI. RAA only gives nitro if they have EKG confirmation of a STEMI. It was brought up that nitrates should be given to patients who have a history or suspected history of coronary artery disease. It was decided to add this to the MDC agenda for the OMDs to discuss.</p> <p>Anne Fereday – Anne stated she wants to know if the time that EMS actually calls the STEMI to the hospital can be added to the reporting paperwork. Allen stated that in the Nemsis reporting system there is a drop box where they input the time they called the STEMI.</p> <p>There was no further business from the floor.</p>	<p>.</p>
<p>Next Meeting</p>	<p>January 26, 2017 at 08:00am</p>	
<p>Adjourn</p>	<p>The meeting adjourned at 10:00am.</p>
