<u>EMS Agencies</u>		
Hanover	No report	
Chesterfield	No report	
Hampden-Sydney VFD	No report	
CVHC	RHCC is available (whether or not it is a designated MCI), even if for situational awareness, and for patients crossing regions, to advise hospitals of incidents; continuing to do preparedness efforts with hospitals, and training/exercises information is available	
<u>Medical Control/Patient Distribution</u>	Thank you for joining us for the Regional Awards ceremony, and congratulations to all the winners; the state winners will be announced at Symposium, and nominations for next year will be opening soon	
<u>ODEMSA</u>		

Old Business:	Triage Tags-in the history of triage tags, the tags have been nominally used; is there another tool [that can be created] for providers to use; tags are supposed to be updated but appears to be printed as needed, and not universally distributed; look into putting a small sub- <u>group</u> together to drill down a product to use, as hospitals are also interested	
New Business: <u>Recent MCIs/Exercises</u>	<p>Cumberland incident-multiple critical adult and peds patients; there was an issue that the family was widely separated [due to location of incident] and some [communication] confusion on what was happening with the patients due to multiple resources from multiple agencies; overall, it was felt that all patients went to appropriate facilities and received the care they needed</p> <p>HCA gave an overview of their MCI exercise-active shooter at Retreat; exercise also took place at Henrico Doctor's Hospital and Parham Doctor's Hospital, with assistance from RAA, RPD, and ODEMSA; a few take-aways was that very few, including hospital admin, knew about the exercise (purposely); people need to be aware that an incident is happening ASAP, more education with admin teams and use of internal plans when there is an incident; up-to-date numbers; address supply chain issues; table top exercises will be implemented</p>
